Program Ambassador

Ambassadors are responsible for representing Hunt Hill – either at Hunt Hill programs or during outreach opportunities such as booths at local fairs and markets. For onsite programs: ambassadors help the presenter set up, check people in and offer assistance, as needed, during the program. At the end of the program, they lock up the program space. For offsite programs, ambassadors ‘man’ a booth, with information provided by Hunt Hill, and help to promote our sanctuary. It’s a great way to check out a program while helping Hunt Hill!

Environmental Educator

These are volunteers who help children explore our natural world. All programs are already written and tested for success. Volunteers are trained on Hunt Hill history, teaching practices and policies and are given all curriculum and materials to present a great program. May is a busy month at Hunt Hill for school programs and we need many education volunteers. Environmental Education volunteers need no specific scientific or education background, only a love for nature and youth.

Group Leader

Group leaders assist our environmental educators during our summer day camp programs. They enjoy a day of outdoor fun - including games, hikes, nature programs, swim time and crafts – with youth ages 5-12. Leaders help with group management and safety, assist campers and assist staff in some set up and cleanup of various activities.

Jr. Counselor

Jr Counselors help with our day camp programs as assistants to our educators. Programs run the last week of June through the first week of August. Jr. Counselors can choose which days they are available to help.

Special Events Baker

These volunteers are people who love to bake and would donate baked goods to us for various programs throughout the year. This is a job you can do in your own home!

Flower Gardener

This year we are looking for individuals and/or groups who would like to adopt a garden. We have flower gardens upkeep in the spring through the fall. The volunteer gardeners should enjoy getting their hands dirty by working in the great outdoors. Pick a few days to help throughout the summer, or adopt a specific flower bed/rain garden to maintain throughout the seasons.

Kitchen Helper

We are looking for volunteers who could assist in the kitchen during some of our busiest kitchen events: such as Cakes at the Lake, UW-Green Bay Upward Bound Program, Spanish Immersion, etc. Volunteers help primarily with prep and cleanup.

Nature Store Clerk

Our nature store volunteers help run our nature store May through September, selling merchandise such as t-shirts, toys, books and more at our various events. Using a simple register system anyone with a friendly demeanor and a couple of spare hours throughout the summer can help!

Librarian

Our library is in need of volunteers who would be willing to donate time to sort, file and put away books that are donated or used by guests during the summer.

Committee Member

No need to be on the board to help! Committee members can be community members who have special interests or skills that can help us continue to develop and grow as well as make informed recommendations to the Board of Directors.
